Animal has no option to choose
A fish can not say I want to change my life. Dolphin can not visit cruise / Tajmohol or Beautiful places.
But human being can change their life thats the difference between human and animal.

Failure people love to play victims' games

LAW OF CAUSE AND EFFECTS

It says there is a reason for everything that happens.

BUSINESS GROWTH CHALLENGE

COACH KANCHON HAPPINESS ON

EVERYTHING HAPPENS FOR A REASON; FOR EVERY EFFECT, THERE IS A SPECIFIC CAUSE.

Aristotle asserted that we live in a world governed by law, not chance. He stated that everything happens for a reason, whether or not we know what it is. He said that every effect has a specific cause or cause.

Newton's third law is

"For every action, there is an equal and opposite reaction."

SUCCESS IS NOT AN ACCIDENT

Do what successful people do over and over again, and you will get the same result as successful people.

Failure is not an accident either.

BUSINESS GROWTH CHALLENGE

1 THE FIRST IMPORTANT QUESTION IS
WHAT BUSINESS ARE YOU REALLY IN?

The most business owner answered this question by explaining their products or services and what they sell. Always define your business as what your product or service does in a customer's life.

- Don't sell cars, You sell safe and dependable transportation.
- you don't sell insurance, You sell the love of family.
- You don’t sell a home, You sell safe and comfort.

If your answer is wrong, your business goes in the wrong directions.
